

The intimacy of Jesus is carried out in the washing of feet. May this extraordinary symbol of Jesus renew each of us at this vulnerable time and deepen our hope that all will be well.  
Sr Maura

**In the face of Covid 19, we worry and wash alot. In this painting, Jesus puts his wet hands on Peters feet and suddenly his face is reflected in the water of Peters life. Jesus service is never shallow, he seeks to enter into our reality, to see and love us - feet and all!**

**Jesus wants to care for us today - will we let him?**

**It will require us to hand ourselves over, becoming vulnerable to Jesus' love. Outer layers of self-sufficiency, built up over years, will need to be stripped off.**

**But what a relief to be able to lay bare our deepest fears and insecurities and to find in the tired and muddy waters of our lives - so badly agitated by Covid 19 - nothing less than the face of Jesus.**
